

PERVIS MICHAEL HARDEN JR

(689) 331-9877 • p.harden32@gmail.com • Orlando, FL

SUMMARY

Accomplished IT Systems Administrator with over 7 years of experience in managing robust Enterprise Infrastructure and Network Security. Expert in Windows Server, Active Directory, and Group Policy implementation to ensure high availability and compliance across nationwide operations. Proven track record in leveraging Virtualization and Disaster Recovery strategies to maintain 99%+ uptime and optimize system performance.

WORK EXPERIENCE

Application Security Analyst • ThreatLocker

April 2025 – March 2026

Orlando, FL

- › Analyze application and script execution behavior to facilitate secure allow/deny decisions, ensuring strict Network Security and Compliance.
- › Monitor SIEM-style logs and perform backend diagnostics to investigate software behavior and potential security vulnerabilities.
- › Partner with engineering teams to improve approval precision and Zero Trust policy, optimizing high availability for client environments.
- › Oversee the delivery of secure application policies to mitigate risks and maintain integrity across distributed enterprise systems.

Application Technician • ThreatLocker

October 2024 – May 2025

Orlando, FL

- › Built customer-replicated virtual infrastructures using VMware and Hyper-V for advanced troubleshooting of enterprise software.
- › Captured application behavioral changes and backend execution patterns to ensure ongoing security and compliance patching.
- › Conducted infrastructure-level diagnostics in a 24/7 operational environment to maintain system uptime and operational efficiency.
- › Managed test labs to validate policy changes before deployment in high-stakes production environments.

Technical Support • ThreatLocker

July 2024 – October 2024

Orlando, FL

- › Supported MSPs and enterprise administrators with large-scale deployment and Group Policy troubleshooting to secure client networks.
- › Built virtual servers and Domain Controller environments to replicate complex escalation scenarios and resolve technical bottlenecks.
- › Maintained 99%+ customer satisfaction scores while delivering remote support for critical infrastructure and policy management.
- › Troubleshot firewall diagnostics and network connectivity issues to ensure seamless SaaS platform integration.

Support Engineer • onePOS

August 2022 – June 2024

Orlando, FL

- › Delivered comprehensive remote technical support for POS Systems, hardware, and network connectivity across distributed nationwide sites.
- › Managed Jira ticket queues and documented root cause findings to improve system reliability and minimize operational disruptions.
- › Resolved complex hardware and software conflicts affecting Forecourt Controllers and transaction processing systems.
- › Monitored system performance and performed hardware diagnostics to ensure high availability for retail operations.

Jr. Systems Administrator • Capstone Logistics

January 2017 – May 2022

Orlando, FL

- › Maintained Enterprise Infrastructure including Windows Server environments, Active Directory user accounts, and warehouse systems.
- › Managed Disaster Recovery protocols, backups, and uptime for business-critical transportation management systems across multiple locations.
- › Oversee system updates and compliance patching to protect server environments and ensure high availability for 24/7 operations.
- › Troubleshoot LAN/WAN connectivity and maintained security permissions using Group Policy to standardize user configurations.

EDUCATION

Purdue Global University

Present

IT Software Development

Jones High School

ADDITIONAL SKILLS

- › **Core System Administration:** Windows Server, Active Directory, Group Policy, Domain Controllers, Azure AD, Office 365, Linux, System Administration
- › **Network & Security:** SIEM, Network Security, Firewall Diagnostics, VPN, LAN/WAN, Compliance, Genetec, Okta, Zero Trust
- › **Infrastructure & Virtualization:** Virtualization, VMware, Hyper-V, VirtualBox, Proxmox, Disaster Recovery, Enterprise Infrastructure, High Availability
- › **Specialized Support & Operations:** POS Systems, Forecourt Controllers, SaaS Support, Jira, Python, SQL Querying, Hardware Diagnostics, Remote Troubleshooting

CERTIFICATIONS

- › CompTIA CySA+ - CompTIA (January 2024)
- › CompTIA Security+ - CompTIA (January 2023)
